PA.010.MH – Durable Medical Equipment, Corrective Appliances and Other Devices

This policy applies to the following lines of business:

- ✓ MedStar Employee (Select)
- ✓ MedStar CareFirst PPO

MedStar Health reviews **Durable Medical Equipment (DME), corrective appliances and other devices** medically necessary for the following scenarios:

1. Items that require prior authorization.
2. Requests for items to be provided by out-of-network vendors.
3. Repairs, maintenance and replacement of items when necessary to make the equipment usable.

A Capped Rental DME program has been instituted by MedStar Health for all lines of business. Under the Capped Rental DME program, all DME identified as capped rental equipment will be rented for a period of 13 months unless indicated otherwise in a specific DME medical or pay policy or a provider's contract. Rental will be capped at the 13th month, or when the item has reached its purchase price.

In the absence of references to repairs and replacements in specific DME, corrective appliances and other device related policies, the section related to repairs and replacements in this policy will be applicable.

Additional Capped Rental Guidelines:

- The 13 month rental period will be reset after a 60 day gap
- In the event that a provider submits an initial claim with a rental modifier and then submits a subsequent claim with a purchase modifier, the claim will pend for review and the purchase claim should be reduced by the rental amount paid in history.
- Note: Check MedStar Health contracts for variations related to rental period length.

1. Repairs to medically necessary DME, corrective appliances and other devices are covered up to the replacement cost when necessary to make the equipment/device serviceable.
2. A new Medical Necessity Form and/or physician's order is not needed for repairs to an item.
3. When the DME, corrective appliance, or other device is under the manufacturer's warranty, repairs are the responsibility of the manufacturer, and are not covered.
4. If the expense for repairs exceeds 50% of the estimated expense of purchasing replacement equipment for the remaining period of medical need, payment shall be limited to the replacement cost.
5. DME and orthotic equipment rental charges cover the expenses of maintaining the equipment. Separately itemized charges for repair of rented equipment are **not covered**. This includes items in the categories of: frequent and substantial servicing, oxygen equipment, capped rental and low-cost associated items, inexpensive or routinely purchased payment.
6. The following table contains repair units of service (UOS) allowances for commonly repaired items.
 - Units of service include basic troubleshooting and problem diagnosis.
 - The UOS is for common repairs based on standardized labor times.
 - This allowance applies to non-rented and out-of-warranty items.
 - Suppliers may only bill the allowable units of service listed in the table for each repair, regardless of the actual repair time.
 - Claims for repairs must include narrative information itemizing each repair and the time taken for each repair.

Replacements:

1. Irreparable damage- In cases where loss or irreparable damage has occurred, replacement of both member owned equipment/device and capped rental equipment may be covered.
 - A physician's order and/or a new MNF is needed to reaffirm the continued medical necessity of the item.
2. Irreparable wear- replacement may be covered if the item of equipment has been in continuous use for the equipment's useful lifetime.
 - A new physician's order and/or a new MNF is needed to reaffirm the medical necessity of the item.
3. DME and Corrective Appliances:
 - The replacement of the equipment before the five year life expectancy can only be done if the item is irreparably damaged, for example by a natural disaster such as fire, flood, etc.
 - Replacement due to wear and tear before the 5 year lifetime is not covered.
 - If DME **or** corrective appliance reaches its 5-year life expectancy, is in good working order, and meets the beneficiary's medical needs, it should not automatically be replaced.
4. Other Devices:
 - The device can be replaced when it is irreparable at the end of its specific life expectancy.

Background

The term Durable Medical Equipment (DME) is defined as equipment which:

- Can withstand repeated use; i.e., could normally be rented and used by successive patients;
- Is primarily and customarily used to serve a medical purpose;
- Generally is not useful to a person in the absence of illness or injury; and,
